125 Yearling & 15 Two Year Old Angus Bulls Sell!

www.SkinnerRanch.com

We would like to welcome you to our Female Production sale! First thank you for considering us for your source of females. We believe that the females and genetics in this sale are the kind that can continue to move your program forward. We have added a large load of bred heifers this year from White Sands a long-time SRS customer. These are the front end of AI heifers from over 800 head. We also have heifers from Huckaba Ranch that you will certainly like, these heifers ran right beside ours all year long.

Looking back at the cattle market this summer it has been incredible. A lot of us have seen record all time high prices for our calves. This is extremely positive for the cattle industry moving forward with beef demand still extremely strong. With cow numbers still declining we believe that feeder calf prices will remain very strong looking forward to the next couple years. Furthermore, sale reports this fall have shown the immense optimism in the cattle business moving into the future.

The moisture we have already seen this fall is extremely beneficial for fall feed and a good start for next year. If you have the feed resources, now is an excellent time to invest in more quality females to add to your program. By adding SRS genetics you can be confident that you are buying females that are problem free with excellent longevity. Our females have been heavily sorted for over 40 years to provide customers with cattle that are functional, fertile, and productive. These cattle have been extensively sorted for structural soundness, good udders, and good dispositions.

As always we cull hard on these cows every year so we only offer the top 60% in this commercial female sale. Any problem cows go straight to the ring and sold by the pound. You can buy these females with confidence that they have been sorted and only the top end sell.

We would like to thank all our valued customers for their continued support of our program. If you have any questions or we can be of any assistance please let us know.

Thanks!
The Skinners
