

Bred Heifer

offered by Skinner Ranch Seedstock

Coleman Donna 6317
Dam of Lot 35

A broody heifer that is hard not to like. An embryo heifer that combines look and excellent production numbers. This balanced female is going to make a great brood cow.

Her dam was selected by Skinners out of Coleman's fall dispersal sale. She was noted by many in that sale for her incredible type and kind. She is a wedge-shaped female that has a great udder and excellent ratios to back up her ideal kind. She records ratios of BWR 7@90, WWR 7@105 and YWR 6@104.

Legitimate is a sire that has gained popularity for adding length and balance to his daughters while boosting performance. Our first daughters are doing a great job.

Don't miss this opportunity to own a Donna that is loaded with maternal greats like Juneau 044, EXT, Rainmaker 4404 and Fair n Square.

DUE: January 22, 2027 To HF Elevation. Elevation was purchased from Hamilton Farms in their 26' spring sale by Skinner Ranch Seedstock, Big Rok Angus and Regency Acres. A son of the popular HF HI Country.

Bred Heifer

offered by Skinner Ranch Seedstock

Square B Atlantis 8060
Sire of Lot 36

A tremendous opportunity to invest in a heifer with an incredible look to her. This heifer has the hard-to-find combination of a beautiful front end, soft middle with an incredible top and hip in her. Additionally, she is excellent in her structure and movement with great feet. She posted a WWR of 106 off her dam.

The dam of this heifer is still in production at 10 years of age. She is an Angus female that is powerfully designed with a great udder and perfect feet. She posts a WWR of 8@101.

Her sire, Atlantis, needs little introduction as a sire that produces broody daughters with great udders and that classic Angus cow look.

This is the type of female that the Skinners love to raise and hate to let go of.

DUE: January 22, 2027 To SRS Noteworthy. Noteworthy was the the top selling Fair N Square son this past year at SRS to Regency Acres. High CED sire with tons of rib and dimension.
